

New Horizons in ART

Participate, Plant knowledge

Upper Egypt Assisted Reproductive Symposium

An International Symposium In The Land of The Pharaohs

UEARS Vision:

UEARS aims to be the meeting point for the sharing of evidence-based practices by reputable national and international figures in the field of ART.

About Us:

Dear Professors, doctors, and guests,

We are delighted to announce the launch of Upper Egypt Assisted Reproduction Symposia or **UEARS**.

As the name implies, **UEARS** consists of a series of symposiums with a vision of being the meeting point for reputable national and international figures in the field of ART in the land of Egypt.

The mission of **UEARS** is to link all areas of assisted reproduction and infertility with all their sub-disciplines by bringing the opinion of top leaders in the field to in-depth discussions on the unyielding issues in our rapidly progressing profession.

On the land of the thousand minarets, Cairo, and in one of its best year seasons, we have the honor of being the destination for our symposium entitled:

New Horizons in ART “An International Symposium In The Land of The Pharaohs”

The symposium will be held on February 4th and 5th, 2016.

Our first symposium will provide a series of specialized theoretical pieces and workshops, all targeted to meet the expectations of our colleagues in the practice of ART. Besides, we are very proud to declare the participation of a distinguished, specialized speaker in our first symposium.

We would like to invite you all to join us in modeling and bringing out of the shade such a challenging program and in contributing to a hopefully fruitful and energizing symposium.

*Thank you,
Yours Sincerely,*

Organizing Committee

*Dr. Hazem Abdelghafar Dr. Hesham Kasem
Dr. Mohamed Fawzy Dr. Mohamed Sabry
Dr. Mohamed Yahya Dr. Mohamed Youssef*
